Risk and Concern

Aman Cotton Fibrous Limited (ACFL) is operating in a locally competitive industry involved in both external and internal factors having direct as well as indirect effects on the investments. The management of Aman Cotton Fibrous Limited carefully considers all risk factors such as interest rate risks, exchange rate risks, currency crisis, industry & market risks and operation risks etc. To consider these risks the management has taken some initiatives to erase risks. The company is emphasis to minimize the dependence on bank borrowing. Since ACFL borrows for long term from Banks with interest rate and has a strong equity base, the management perceives that fluctuation of interest rate on borrowing would have little impact upon the performance of the company.

Aman Cotton Fibrous Limited has to import some of its raw materials from foreign market, but those raw materials are also available in local market. Depending on the price of raw materials in foreign and local market, foreign currency rate, lead time, foreign currency rate movement etc. We make our decision for procurement of raw materials. However, as a highly profitable company the foreign exchange fluctuation risk is not vital in case of LC retirement.

Operational risk arises time to time out of company's business. This risk can also be summarized as human risk, which occurs due to human error.

The Company manages this risk through a control-based environment. This is supported by an independent program of periodic reviews undertaken by internal audit, and by monitoring external operational risk events, which ensure that the Company stays in line which industry best practice and takes account or lessons learned from publicized operational failures within the textile industry.
